it has been found to have the conditions or defects hereinafter described to an extent that endangers the life, limb, health, property, safety, or welfare of the public or the occupants thereof:

- _____ 2 (d) A portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the 2018 Building Code for new buildings of similar structure, purpose, or location.
- _____ (e) A portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property.
- _____ (f) A portion of a building, or any member, appurtenance or ornamentation on the exterior thereof is not of sufficient strength or stability, or is not so anchored, attached or fastened in place to be capable of resisting a wind pressure of that specified in the Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the 2018 Building Code for such buildings.
- _____ (g) A portion thereof has wracked, warped, buckled, or settled to such an extent that walls or other structural portions have materially less resistance to winds, floods, or earthquakes than is required in the case of similar new construction,
- _____ (h) The building, or a portion thereof, because of (a) dilapidation, deterioration or decay; (b) faulty construction; (c) the removal, movement, or instability of any portion of the ground necessary for the purpose of supporting such building; (d) the deterioration, decay, or inadequacy of its foundation; or any other cause is likely to collapse partially or completely.
- _____ (i) The building, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.
- _____ (j) The exterior walls or other vertical structural members list, lean or buckle to such an extent that a plumb line passing through the center of gravity does not fall inside the middle one third of the base.
- _____ (k) The building, exclusive of the foundation, shows 33 percent or more damage or deterioration of its supporting member or members, or 50 or more percent damage or deterioration of its non-supporting members, enclosing or outside walls of coverings.
- _____ (l) The building has been so damaged by fire, wind, earthquake, flood or other causes, or has become so dilapidated or

it has been found to have the conditions or defects hereinafter described to an extent that endangers the life, limb, health, property, safety, or welfare of the public or the occupants thereof:

- _____ (d) A portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the 2018 Building Code for new buildings of similar structure, purpose, or location.
- _____ (e) A portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property.
- _____ (f) A portion of a building, or any member, appurtenance or ornamentation on the exterior thereof is not of sufficient strength or stability, or is not so anchored, attached or fastened in place to be capable of resisting a wind pressure of that specified in the Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the 2018 Building Code for such buildings.
- _____ (g) A portion thereof has wracked, warped, buckled, or settled to such an extent that walls or other structural portions have materially less resistance to winds, floods, or earthquakes than is required in the case of similar new construction,
- _____ (h) The building, or a portion thereof, because of (a) dilapidation, deterioration or decay; (b) faulty construction; (c) the removal, movement, or instability of any portion of the ground necessary for the purpose of supporting such building; (d) the deterioration, decay, or inadequacy of its foundation; or any other cause is likely to collapse partially or completely.
- _____ (i) The building, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.
- _____ (j) The exterior walls or other vertical structural members list, lean or buckle to such an extent that a plumb line passing through the center of gravity does not fall inside the middle one third of the base.
- _____ (k) The building, exclusive of the foundation, shows 33 percent or more damage or deterioration of its supporting member or members, or 50 or more percent damage or deterioration of its non-supporting members, enclosing or outside walls of coverings.
- _____ (l) The building has been so damaged by fire, wind, earthquake, flood or other causes, or has become so dilapidated or

it has been found to have the conditions or defects hereinafter described to an extent that endangers the life, limb, health, property, safety, or welfare of the public or the occupants thereof:

- _____ (d) A portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the 2018 Building Code for new buildings of similar structure, purpose, or location.
- _____ (e) A portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property.
- _____ (f) A portion of a building, or any member, appurtenance or ornamentation on the exterior thereof is not of sufficient strength or stability, or is not so anchored, attached or fastened in place to be capable of resisting a wind pressure of that specified in the Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the 2018 Building Code for such buildings.
- _____ (g) A portion thereof has wracked, warped, buckled, or settled to such an extent that walls or other structural portions have materially less resistance to winds, floods, or earthquakes than is required in the case of similar new construction,
- _____ (h) The building, or a portion thereof, because of (a) dilapidation, deterioration or decay; (b) faulty construction; (c) the removal, movement, or instability of any portion of the ground necessary for the purpose of supporting such building; (d) the deterioration, decay, or inadequacy of its foundation; or any other cause is likely to collapse partially or completely.
- _____ (i) The building, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.
- _____ (j) The exterior walls or other vertical structural members list, lean or buckle to such an extent that a plumb line passing through the center of gravity does not fall inside the middle one third of the base.
- _____ (k) The building, exclusive of the foundation, shows 33 percent or more damage or deterioration of its supporting member or members, or 50 or more percent damage or deterioration of its non-supporting members, enclosing or outside walls of coverings.
- _____ (l) The building has been so damaged by fire, wind, earthquake, flood or other causes, or has become so dilapidated or

it has been found to have the conditions or defects hereinafter described to an extent that endangers the life, limb, health, property, safety, or welfare of the public or the occupants thereof:

 p

- (d) A portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the 2018 Building Code for new buildings of similar structure, purpose, or location.
- (e) A portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property.
- (f) A portion of a building, or any member, appurtenance or ornamentation on the exterior thereof is not of sufficient strength or stability, or is not so anchored, attached or fastened in place to be capable of resisting a wind pressure of that specified in the Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the 2018 Building Code for such buildings.
- (g) A portion thereof has wracked, warped, buckled, or settled to such an extent that walls or other structural portions have materially less resistance to winds, floods, or earthquakes than is required in the case of similar new construction,
- (h) The building, or a portion thereof, because of (a) dilapidation, deterioration or decay; (b) faulty construction; (c) the removal, movement, or instability of any portion of the ground necessary for the purpose of supporting such building; (d) the deterioration, decay, or inadequacy of its foundation; or any other cause is likely to collapse partially or completely.
- (i) The building, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.
- (j) The exterior walls or other vertical structural members list, lean or buckle to such an extent that a plumb line passing through the center of gravity does not fall inside the middle one third of the base.
- (k) The building, exclusive of the foundation, shows 33 percent or more damage or deterioration of its supporting member or members, or 50 or more percent damage or deterioration of its non-supporting members, enclosing or outside walls of coverings.

 f

- (l) The building has been so damaged by fire, wind, earthquake, flood or other causes, or has become so dilapidated or
