City of La Marque

Re: Variance Request for proposed **QuikTrip #4651**

Purpose: QuikTrip hereby respectfully requests consideration and approval for variances from the City of La Marque sign code.

Proposed Use: QuikTrip is proposing to construct, operate, and professionally maintain a new 6,445 SF 24-hour Convenience Store with retail motor fuel sales. The QuikTrip development will provide a family oriented, clean and modern facility for the citizens of La Marque. QuikTrip provides many of the items you will find in your larger grocery stores, with very similar pricing. We are also making great strides in the food industry with our state-of-the-art kitchen in our newest Generation 4 Store. QuikTrip takes great pride in our employees and our stores. We build our facilities to last fifty plus years, and we put in the time and care to ensure that they do. We have an in-house Facility Support team that maintains our stores daily. Our Store Teams are called on to maintain everything from landscaping, coffee/cappuccino machines, coffee bar, tea bar, paving, and all other aesthetic and mechanical features of the store. QuikTrip

QuikTrip Corporation is nationally known for our clean, quality appearance, fantastic customer service, as well as:

- High-quality jobs
 - Currently #68 on Forbes list of America's 500 Best US Companies
 - Never laid off an Employee is the history of the company which started in 1958.
 - Fortune Magazine's list of the 100 Best Companies to Work for over 16 years
 - Employees are among the highest paid in the retail industry- 30% Above Industry Average
 - Great health, life, dental and vision benefits
 - 401(k), Profit Sharing and Employee Stock Option Plan (ESOP) 1/5 of every dollar earned goes to the employees.

- **No store is franchised**, and QT is responsible for all aspects of the business.
- QT fuel is unconditionally guaranteed because our fuel is of the highest quality. QT will resolve any fuel-related problems to the customer's satisfaction.
- QT security provides a sophisticated alarm system and monitoring devices, video cameras and raised checkout for better visibility and windows are clutter-free, providing open visibility from the store to the fuel pumps and street. Our security system rivals those in the banking industry.
- "Safe Place" being one of our contribution recipients is a national non-profit charitable organization that provides safety for troubled or threatened youth. Since 1991, QuikTrip has been a designated Safe Place, where runaways and at risk youth can come in off the street, receive food and drink while they wait for a volunteer from Safe Place agency partner to connect them with professional help or a place to stay until their situation is resolved. All members of the QuikTrip management team are trained on Safe Place policies and procedures, and how to act accordingly when a troubled youth enters one of our facilities requesting assistance. We helped over 600 at danger youth last year alone.

Variance Request: QuikTrip respectfully requests the following variances:

POLE SIGN ALLOWANCE

- City Ordinance **Section 71-17:** C4 Interstate Commercial- City Code does not clearly state that a Pole Sign is allowed. City Staff has stated that all Pole Signs or High Rise Signs require a Variance to be allowed. QuikTrip respectfully requests to be allowed, in conjunction with the development of the proposed use, a 90' Pole Sign with allowed square footage of 473 Square Feet.
- Hardship- the proposed development property located at the corner of the I-45 intersection of Lake Road sits significantly below the elevated Interstate. The visibility to the commercial property is limited due to the difference in grade elevations. The ongoing construction improvements for I-45 shall continue to limit the visibility to the property.
- Not Self-Imposed- The I-45 corridor improvements are necessary to allow for the continued growth of the region. While TXDOT infrastructure improvements continue to facilitate growth, the ability to develop new businesses along the new infrastructure must adapt to the improvements that begin to limit the opportunities for commercial developments along that corridor. The property for the proposed improvements limits the viability for commercial development when not visible.
- Why the variance is necessary- Due to the elevated structure of Interstate 45, and reconfiguration of the exit/on ramps, a pole sign at the requested height and square footage is required to allow vehicular traffic time to recognize the commercial development, maneuver and safely exit the interstate. The sign will be visible from the new proposed exist ramps as per the TXDOT improvement plans.
- Compatibility- The variance requested will remain compatible with neighboring properties providing equivalent signage and is consistent with the I-45 corridor throughout the City of La Marque. As a reference, the proposed QuikTrip Pole Sign at 90' shall sit lower than the existing McDonald's sign.

FREE STANDING SIGN SEPARATION

- City Ordinance **Section 71-17(k)(8)** which states that a monument sign may not be located within 125 feet of another freestanding sign on the same premises. QuikTrip is proposing a variance to reduce the minimum distance required from 125' to 100'.
- Hardship- Recent right of way dedication for the further improvement of the I-45 corridor have limited and/or created a uniquely shaped parcel of land. QuikTrip has assembled property from more than one landowner, including McDonalds, to further redevelop the corner but the unique property shape assembled still creates a challenge and therefore a variance is being requested.
- Not Self-Imposed- Although multi-parcel assemblage was performed, the remaining available property to redevelop, post right of way taking for the intersection improvements, have created limited frontage for the corner. To still maintain access drive locations as required by TXDOT along with maintaining separation from neighboring property signage, QuikTrip is proposing locations for signage that are less than code provides with regards to separation.
- Why the variance is necessary- the sign code recognizes the importance of signage to commercial use and allows a monument sign for each frontage that the property abuts. The property has 3 frontages and therefore 3 monument signs would be allowed. QuikTrip is requesting a total of 2 free-standing signs to provide necessary information pertinent to the proposed development along the 2 main frontages and in order to do that, a variance is

necessary as the separation between freestanding signs cannot be achieved without further variances being requested including setbacks required and reducing access to the property.

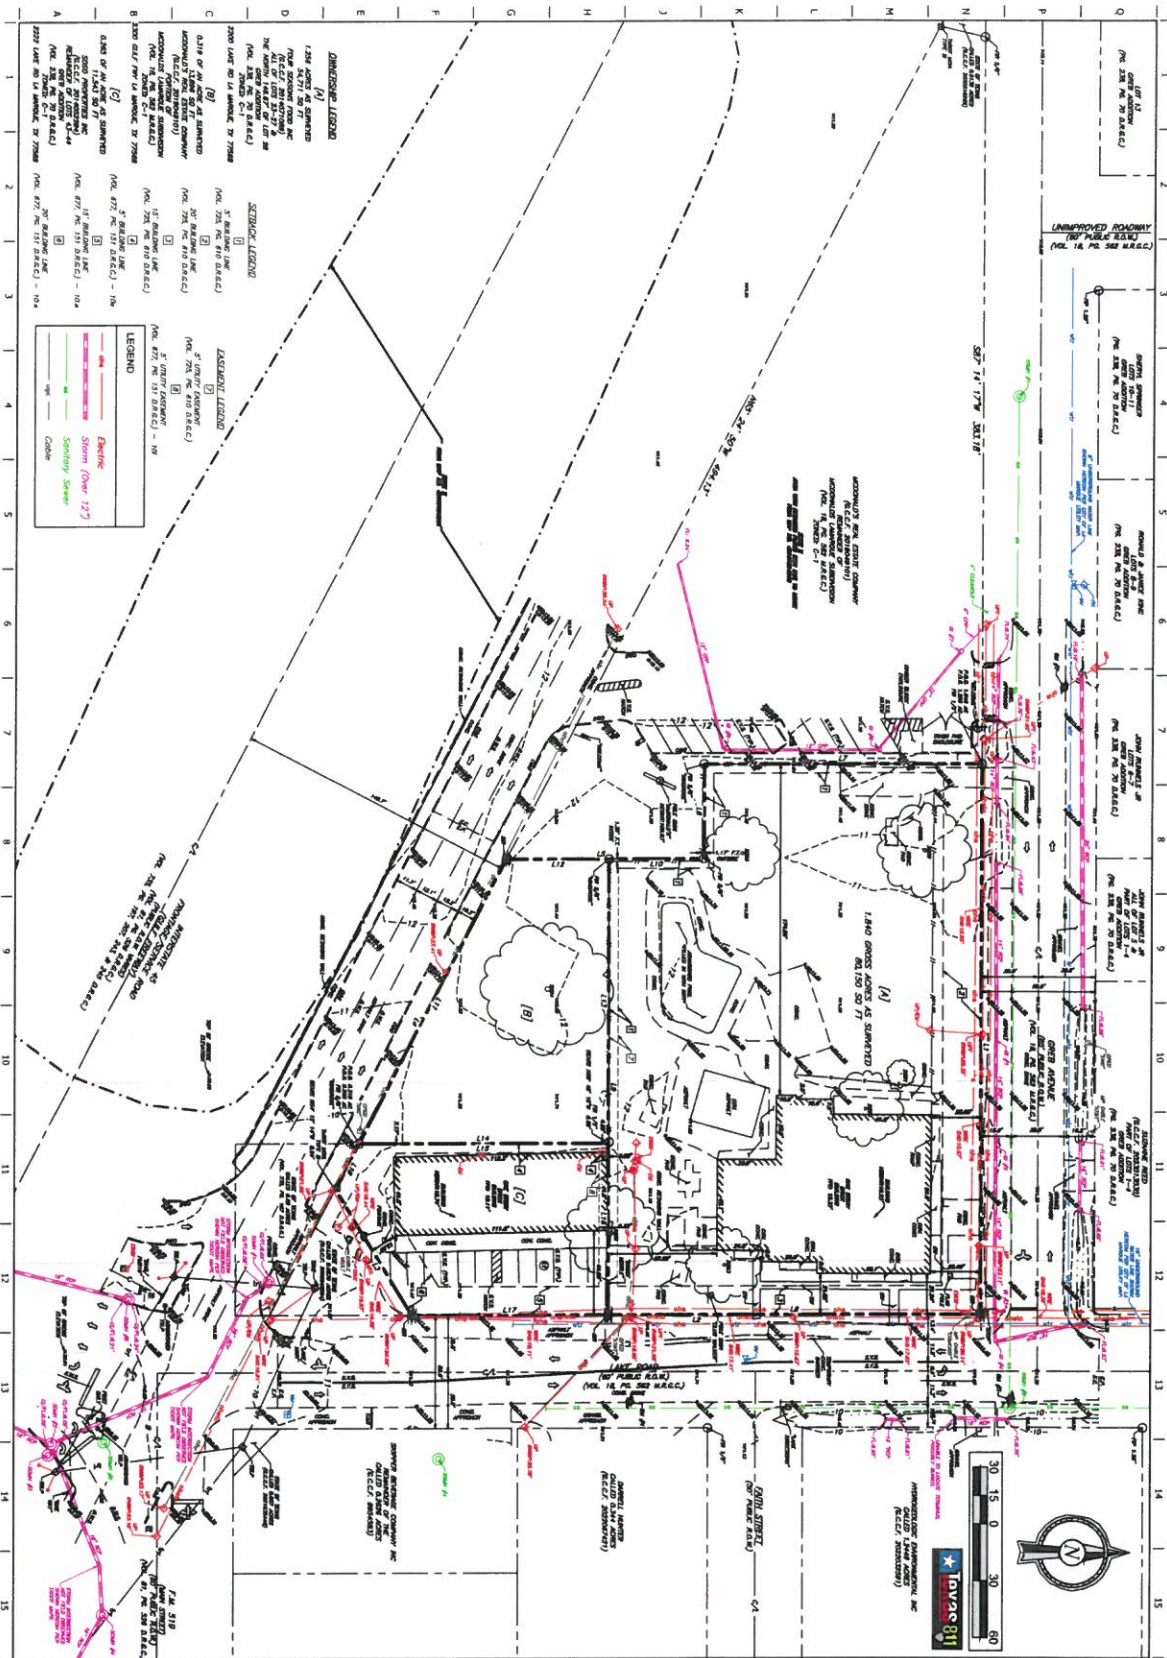

- Compatibility- Due to the unique property shape on this project and drive placement for customers to safely enter and exit the site, the signs have been placed as far apart as possible while maintaining adequate setbacks from property lines and separation from curbs. The variance requested will remain compatible with neighboring properties by maintaining the integrity of the area while allowing for a new redevelopment to further improve aesthetics in the immediate area of I-45 and Lake Road.

For your convenience, updated site plans, renderings, and submittal documents have been attached to this response.

Sincerely,

Bo McElwain
Real Estate Project Manager
