409.938.9202

City Manager Carol Buttler gave an overview of the process involved in preparing this year's proposed budget. Each department will be proposing a flat budget at this time. The City Manager is proposing that the turkey bucks be raised and given to all City employees. She mentioned that duties are being shuffled around because of the large number of vacancies within the departments, and that the City is at minimum staff level at this time. The City has a fund balance for seventy days of working capital. Some of the main expenditures in the proposed budget include new radios to accommodate the new frequency, and a kiosk that will allow patrons to pay 24-7, if they not able to pay online. She also explained the process of the workshops and said that the scheduling dates of those workshops will be discussed later in the meeting.

Discussion followed and it was the consensus of City Council to begin the workshops on Wednesday, August 7, 2013 at 1:00 p.m.

Mayor Pro-Tem Bell suggested that another workshop day after the two Council Workshops be discussed so that Council has time to meet with their constituents and on the third day to come back with feedback.

Discussion continued of which days each department would be scheduled for their portion of the budget workshop process, by scheduling some of the smaller departments for the first day and then work from there.

It was discussed that as proposed changes were brought forward, those changes be brought on the second workshop night with possible action to vote on then.

City Manager informed Council that after additions and changes had been made and voted on, according to Charter requirements, one more public hearing is required.

c. Discussion/possible action – Schedule a public hearing on proposed budget FY 2013-2014. **Councilmember Trube made a motion to schedule a public hearing to the proposed budget FY 2013-2014 for August 12, 2013. **Councilmember Osteen seconded the motion carried unanimously.

d. Discussion/possible action – maintain their current tax rate of .51436.

Finance Director Suzy Kou referred to the Truth-In Taxation laws and the City Charter, and explained that the City Council isn't adopting the tax rate at this time, but only setting it, which has to done before the budget process begins.

Ms. Kou explained that if the tax rate is lower or equal to the effective or the rollback rate, we will need to hold two public hearings.

e. Discussion/possible action – Schedule public hearings on tax rate if needed. August 12 and August 19 if necessary. ** Councilmember Bell made a motion to schedule the two public

Auto Crimes Task Force maintains a local area network consisting of a server, workstations, and network printers to facilitate its operations and record keeping, multiple software packages, FAX/Modem operations, access to Texas Crime Information Center and access to the County of Galveston mainframe via connection to the County of Galveston county wide area network. The Galveston County Auto Crimes Task Force utilizes the OSSl multi-jurisdictional records management and mobile data systems. Direct and immediate access to appropriate technical and maintenance assistance is paramount in an investigative / intelligence based unit such as the Auto Crimes Task Force. REQUIRED NARRATIVE: Briefly describe the applicant's travel policy (i.e., mileage rates and per diem rates). Specify purposes for each item of travel. Break out costs of each in-state and each out-of-state trip to separately show the specific costs of transportation and per diem. Describe travel purposes and expense calculations (example: purpose, number of participants, number of days/nights, costs for lodging/per diem, transportation, parking, etc).

A copy of the Travel Policy for Galveston County is attached. County employees will utilize the most economical and effective means of transportation, housing and meals that are available. When evaluating travel costs, it is important to include employee costs. That is, savings from inexpensive travel agenda can more than be offset by excessive travel time that keeps the employee away from normal County duties. Saving a few dollars on airline tickets is not warranted if the employee must leave a day early and the cost of the employee's salary for that day exceeds the airline ticket savings. Nevertheless, whenever justifiable employees will utilize transportation that is the most economical in total trip cost. Hotel shuttles are preferred over taxis and taxis are preferred over rental cars, etc. The current per diem rate for the county is \$45 per day and the mileage rate is \$.555 per mile.

A. Vehicles: **ABTPA Funds for Fiscal Year 2014- \$66,500 **

The Galveston County Auto Crimes Task Force relies on its vehicles to serve the project area. Auto Crimes Task Force currently purchases all vehicles. The maintenance and insurance of the vehicles are maintained by the assigned agent's home agency. Galveston County currently replaces vehicles based on mileage and or age (4 years). Auto Crimes Task Force is requesting funds to replace two vehicles. The vehicles being replaced will be available for public auction and the proceeds will be placed into Program Income to be used to fund a portion of the Project in the next fiscal year. Price includes estimated vehicle price of \$28,500 each plus approximately \$4,750 per truck to fully equip the vehicle with lights, sirens, antennas, window tint, tool boxes, etc, and the installation of such and de-install from the replaced vehicles.

B. Laptop Computers (9): ** ABTPA Funds for Fiscal Year 2014 - \$48,500 **

REQUIRED NARRATIVE: Briefly describe the basis for arriving at the cost of each line item AND THE USE OF EACH ITEM.

(A) Fuel ** Cash match using Fiscal Year 2014 County and City Funds **
**ABTPA Funds for Fiscal Year 2014- \$5,000 **

Auto Crimes Task Force maintains two (2) major credit card accounts to be utilized by Agents who are travelling outside of Galveston County during investigations, training, Crime Prevention Programs and during emergency situations when an Agent cannot fuel his vehicle from his agency's facility. Proper documentation concerning tax exempt status has been completed to remove appropriate taxes on fuel and oil associated with the credit cards. We regularly travel at the request of Texas Automobile Burglary and Theft Prevention Authority staff and other projects outside our normal area of operation to lend our assistance to requesting agencies. Due to the rising cost of fuel, we feel that \$5,000.00 should cover fuel costs for bait vehicle, Crime Prevention vehicles, and travel expenses not covered by the cash match of the cities and county. Cash match figures based on the following calculation: \$70/tank x 1 time/week x 9 vehicles x 52 week/year

(B) Vehicle Maintenance / Insurance ** Cash match using Fiscal Year 2014 County and City Funds **
**ABTPA Funds for Fiscal Year 2014- \$4,000 **

Auto Crimes Task Force has obtained at no cost to Texas Automobile Burglary and Theft Prevention Authority, 2 bait vehicles, bait all terrain vehicles and bait personal water craft. These vehicles are used for "bait", surveillance, and other covert activities. Auto Crimes Task Force has two fully functional "Bait Vehicles" equipped with tracking devices, cameras, sound and recording system. When a theft of the "bait" has occurred Auto Crimes Task Force is alerted and goes into action. The project requests \$4000.00 to cover maintenance costs of the bait vehicle, along with our License Plate Reader vehicle, our crime prevention trailer and other trailers. Insurance for these vehicles is provided by the county. Insurance and maintenance provided by each participating agency for 8 agent's vehicles used as cash match is estimated at \$2500/year for each.

(C) Wireless Communications **ABTPA Funds for Fiscal Year 2014 - \$19,290 **

This year Galveston County Auto Crimes Task Force would like to combine two previous line items (Cellular Phones and Aircards) to one account to cover all wireless phone/data lines. Cellular telephones are used by Auto Crimes Task Force agents to support field activities, sharing information and requesting analytical assistance. With the use of cellular telephones we are able to contact and share information or request assistance from multiple agencies, local, state and federal, instantly, unlike a radio that may not have radio contact/frequencies or are out of radio range. We have recently switched providers to Verizon and our projected annual cost is \$9,600. Through Verizon, we also have cellular data links in 2 bait vehicles and other data links for our LPR and tracking units to operate our GPS system. GCACTF maintains two IP video cameras which are used for surveillance. This system utilizes two air cards. The cost for these services is approximately \$315/month for a projected total of \$3,780. We will continue to use air cards (cellular data link) with our mobile laptop computers to allow Auto Crimes Task Force agents to function in the field as in the office by sending and receiving data related to identifying motor vehicles, suspects, or relaying information in surveillance situations in a timely and secure method. This service is currently provided by Sprint and costs approximately \$436/month for a total of \$5,232 annually. Finally, we have one data line through AT&T at a cost of \$56.50/month, total of \$678 annually, which is necessary for our 980 GPS tracker. Some of the various surveillance equipment is proprietary to particular service providers so we will continue to have separate providers for FY 2014.

(D) Departmental (expendable) Supplies **ABTPA Funds for Fiscal Year 2014- \$4,500 **

This category deals with replacement of cleaners (degreasers), damaged hand tools, and many other items used by Auto Crimes Task Force Agents in the course of their assigned duties.

(E) Registration Fees **ABTPA Funds for Fiscal Year 2014 - \$2,100 **

Each of the below listed schools are discussed under Schedule C – travel in detail. Additional training seminars may become available, both in Texas and in neighboring states that provide valuable information, expertise and contacts to the attending agents.

Galveston County Information Technology will support and maintain the black and white laser printers and provide ink cartridges.

(H) Building Maintenance ** ABTPA Funds for Fiscal Year 2014 - \$1,000 **

Galveston County provides building maintenance and facility support such as lawn care, custodial services and air-conditioning/heating. \$1,000.00 is requested to cover unforeseen expenditures associated with the facility.

(I) Evidence Towing **ABTPA Funds for Fiscal Year 2014 - \$500 **

Auto Crimes Task Force has a car hauler that we utilize for most recoveries, however, some circumstances, such as fully stripped vehicles with no tires, necessitate the use of a contract wrecker service. It is estimated that these instances should not exceed \$500.00 in towing fees.

(J) Service Contracts **ABTPA Funds for Fiscal Year 2014 - \$8,840 **

Auto Crimes Task Force maintains service contracts with Vigilant Video, Susteen and Bender Enterprises for continued services to our technical equipment. We will have an annual renewal with Vigilant Video of \$2,500 for upgrades to the existing License Plate Reader system and continued access to the LEARN data servers. Additionally, NVLS Tier I access (originally provided for 2 years with purchase) will be expiring. The annual renewal for access to this data will be \$5,000 beginning in FY 2014. We will renew our contract with Susteen, \$800 annually for upgrades to the Cellular Phone Data Retrieval system which provides continued additions for the retrieval of data from new models by all makers of cell phones. Finally, we will also have an annual VINtrack software upgrade for the Homeland Security Package for our OBD and bluetooth VIN readers through Bender Enterprises. This cost is approximately \$540 per year.

(K) Radio Maintenance **Cash match using Fiscal Year 2014 Program Income Funds **

These funds provide for replacement of antennas, reprogramming expenses, and service fees associated with the maintenance of the 800 MHz Trunk Radio System and mobile data computers. Estimated maintenance costs are \$3500.00. The County is operating in the Smart Zone and has finalized the upgrade in Fiscal Year 2012.

APPLICATION FOR STATE

PROGRAM NARRATIVE

- II. The Program Narrative should present the information by which the eligibility and merit of the project can be assessed. Applications will be evaluated for funding consideration, according to the congruence of the project with the criteria stated above. The Program Narrative should include but is not limited to the following information:

1. PROBLEM STATEMENT & HISTORICAL INFORMATION:

(Please limit information to 300 words)

- a. Provide an assessment of the auto theft problem in the areas of coverage and existing activities that address the problem. Identify the target population and the geographic target area.

Since 1993, the GCACTF has provided full service to Galveston County (pop. 291,309 per 2010 Census). Additionally, Brazoria, Southern Harris and Matagorda counties have been serviced on a request basis. Recently there has been an increase in requests from Brazoria County agencies. In 2011, we saw a 72% reduction in auto theft from 1991. GCACTF was tasked with Burglaries to Motor Vehicles in 2007. Since, there has been an almost 16% reduction in BMV's. These reductions are attributed to increased public awareness, pro-active LPR patrols, surveillance and bait vehicle operations. Joining forces with Texas DMV Regional investigators and state and local law enforcement agencies has helped significantly. Providing local law enforcement training has also assisted in the decline of vehicle theft and burglary. Despite the reduction, Galveston County has experienced an increase in incidences of violence associated with motor vehicle crimes. Much of this is due to increased gang activity throughout the region.

- b. Describe the extent to which this project will duplicate or overlap existing activities, and why that (if any) is necessary.

None

- c. Describe and document trends of the problem and the need that makes this grant necessary.

Galveston County's tourism industry includes multiple cruise lines, entertainment venues, proximity to the beach and the Houston Metropolitan area. The Ports of Galveston and Freeport are in the program area as well and export vehicles and accessories all over the world. The north end of Galveston County continues to grow rapidly. A new outlet shopping mall opened in Texas City in 2012. The City of League City also has new shopping and entertainment venues that have opened in the past year. As long as Galveston County continues to grow and remains a hub for travelers, there will continue to be an increased risk for vehicle thefts and burglaries. With the downturn in the economy and increased fuel costs, Galveston County now ranks in the top five travel destination in the State of Texas.

- d. Using the spreadsheet below, provide accurate statistical data for problem in project area. (e.g., cite 3 years of UCR data) Please provide all data that is available for your agency or agencies:

Vehicle Theft Data	2009	2010	2011
Number of Stolen Vehicles (UCR)	648	617	479

b. Describe how the project will impact the stated problem.

Although our project area has been historically successful, we have to adapt to changing trends in our coverage area. There are 2 target areas in the county that have seen dramatic changes which we intend to address. The north end of Galveston County and eastern Brazoria County are ever-growing in population and retail business creating a target rich environment. The tourist industry in the southern part of Galveston County has seen record increases since the decline of the economy. Both of these areas have seen increases in the incidences of violence associated with motor vehicle crimes.

Through increased communication with law enforcement agencies and interaction directly with citizens and civic groups, along with increased visibility through the LPR and crime prevention displays, we hope to continue to see reductions in the numbers of motor vehicle thefts and burglaries. The proposed additions of increased crime prevention and education activities should have a positive impact on the changing trends as well.

c. Describe proposed plan for auto theft crime prevention, education and training.

Pro-active and re-active enforcement has always, and will always be an important part of our project. However, the changing trends in our area dictate that we must place a higher priority on crime prevention education and training initiatives to include:

- Operations targeting vehicles left with keys in them
- Apartments and neighborhood watch associations, home owners associations, and local businesses.
- Citizens police and sheriffs academy associations
- Increased communications and training of crime prevention and Law Enforcement Personnel.
- Increased visibility through ACTF/ABTPA display vehicles

AUTOMOBILE BURGLARY & THEFT PREVENTION AUTHORITY

PROGRAM NARRATIVE

3. **FUNCTIONS OF PROPOSED PROJECT:**

The functions of the project should: **(Please limit information to 300 words)**

- ♦ Identify the service needs to be met by this project and the applicant's experience or qualifications.
- ♦ Describe how this project will cooperate/coordinate activities with other appropriate agencies/projects.
- ♦ Describe in what way (if any) is this project innovative and what methods taken to assure that the project demonstrates cross-cultural awareness in all project activities and in its staffing and training.

Since 1993 the GCACTF has continually thought outside the box to enact new and innovative programs to combat motor vehicle theft and burglary. Currently, GCACTF agents are specially trained in vehicle fire investigations, cellular phone examinations, and standard and electronic surveillance measures in addition to traditional auto theft and burglary investigation methods.

All operations and services are provided to all law enforcement agencies in Galveston County as well as the counties serviced on a request basis.

The applicant's experience originated before the first task force was ever formed. The ABTPA concept originated in Galveston County and we were one of the first projects in 1993.

The GCACTF was the first to have a stripped vehicle display; crime prevention trailer; to integrate environmental crimes into auto theft; and hosted 4 grantee conferences. The GCACTF has also hosted three International Law Enforcement Conferences.

GCACTF was one of the first programs to initiate bait vehicle operations and has one of the most active LPR programs.

The GCACTF has continued to produce statistics comparable to much larger areas. GCACTF has remained innovative and vigilant in the legislative process.

4. **EVALUATION DESIGN:**

- ♦ The program evaluation should indicate how the applicant will assess the success of the project and the extent to which the strategy achieved the project's goals and objectives.

a. Describe the design of a plan for local evaluation of this project.

- goals and objectives to be evaluated monthly,
- design and implement an in-house long term calendar to tentatively schedule operations, crime prevention activities, and special projects outlined in our grant objectives
- utilize monthly report as a measuring stick to evaluate the status of our goals to allow for adjustment of objectives if needed

b. Cite relevant data that will be used to measure the effectiveness of this project.

The obvious measurable data that will evaluate our effectiveness include UCR statistics, local theft, recovery, and arrest statistics, and the values of recovered properties. However, the ultimate compliment to our program is receiving repeated calls requesting assistance from law enforcement agencies worldwide, prosecuting agencies, other government departments/agencies, and the community. We will continue to document these on our monthly progress reports.

c. Describe the mechanism to evaluate the program's progress.

The GCACTF will continue to document vehicle theft and burglary statistics in an excel spreadsheet that allows for easy and quick identification of statistical trends and comparisons to previous periods and/or locations.

CITY COUNCIL AGENDA FORM

Meeting Date: August 12, 2013
Prepared by: AT
Department: Development Services

Agenda item: 8a
Reviewed by: *CJB*

AGENDA ITEM DESCRIPTION: Discussion/possible action on Ordinance No. **O-2013-009**, requiring a permit to conduct a garage sale, requiring a fee, limiting the number of sales and prohibiting signs on public rights-of-way.

☒ **Attachments for Reference**
Ordinance
Letter of recommendation

Staff Briefing: Due to the abatement problems arising from the high number of garage sales, yard sales and other types of sales, it is necessary to regulate the number and frequency of these types of sales within the City. In order to make sure that no citizen is changing the character of residential neighborhoods and to aid in the elimination of blight in the City, staff believes this ordinance is needed.

The City Attorney has reviewed and corrected proposed ordinance.

History (if applicable): Clean City Commission has had numerous complaints on signs advertising sales. Residents have operated consecutive sales for weeks at a time. There are no current restrictions giving staff the authority to prosecute at this time. Several complaints have been received about the changes that these continuous sales have made in the neighborhoods.

Target Implementation: October 2013

Significant Action Dates: On July 9, 2013, the Planning and Zoning Commission discussed and voted on making a recommendation to City Council to adopt an ordinance regulating such sales. - The sewer line project – City Staff has met with the contract engineer on July 19th, modified bid specifications and reviewed construction plans for rehabilitation of the existing 24" line. The original plan of replacement was not feasible due to cost restraints and the new method of repairs is to re-line the older existing pipe.

The project engineer has supplied the contract documents to the City as of July 30th. The documents were forwarded to City Hall for distribution to the City Attorney and the Mayor for execution. Construction is scheduled to start within thirty (30) days of the execution of contracts.

- **Sam's Store Construction Site –**

Sam's Real Estate Business Trust in conjunction with Westbound Bank has submitted an Escrow Agreement (Road, Utility and Drainage Ditch Dedications). These documents will need to be reviewed by city staff and the city attorney prior to submittal for Council's approval. Due to workload staff has been unable to review the documents for further processing.

- **Hall's Super Highway Development 3600 Gulf Freeway –** City staff met with the developer's engineering firm and discussed possible avenues for water and sewer availability. The engineering firm obtained easements from the Galveston County Drainage District to move forward with development within their easement. Design criteria information was provided to the engineering firm from City staff and preliminary plans for water and sewer facilities construction were submitted back to City staff on July 31st for review.

- **TCEQ - 10 Year Sewer System Evaluation Program –** City staff met with Cobb Fendley Engineering on July 19th and reviewed and discussed a standard form of agreement for consulting services.

- The services will provide project development for inspection and cleaning of lines.
- Bid Phase services to develop bid specifications for the first year of cleaning inspection contracts.
- Investigation and oversight to supply personnel to oversee contractors, submittal of logs, shop drawings and compliance.
- Data review and recommendations, which will prepare an Opinion of Probable Construction Costs for the City in budgeting for the 2014 repairs. These services will be approximately \$25,000.00 to \$35,000.00. City staff will meet with the City Manager and Finance Director in reference to the financial funding needed to move forward.
- **Family Dollar –** City staff submitted recommended changes to the construction plans for development of the water, sewer, drainage and road construction. The engineering firm was supplied detailed construction information and City ordinances dictating the construction methods. This information was supplied to City staff in revision #2 of the Family Dollar plans and specifications. The final plans were approved by City staff on July 29th. The engineering firm is supplying four (4) sets of signed contract plans for the start of construction.
- **Dalian Street Repairs –** City staff has prepared price proposals to repair the sections of road that were removed and replaced with road base limestone earlier this year. The repair proposals are being sent to contractors for asphalt repair quotes. At this time, we have received one quote.

- **Stage 2 Drought** – On July 1, 2013, the City of La Marque increased its Drought Contingency to Stage 2 requirements. Since the implementation of Stage 2 requirements, City staff started supplementing well water to help offset the surface water use to meet the 10% reduction imposed by Gulf Coast Water Authority.
- The Utility Department is experiencing frequent water leaks which have run the total combined surface and well water above the 100% mark fourteen (14) out of the last fifteen (15) days.
With this supplement of well water we have only achieved the 10% reduction seven (7) out of the last fifteen (15) days.
- The amount of well water that is being utilized is approximately 400,000 gallons a day. At this rate we have sufficient amount of reserve well water to carry us through September 30, 2013. October 1st, the City's groundwater contracts renew with the allotment of 54,000,000 gallons. If we continue to utilize well water after October 1, 2013 we will be depleting our reserve capacity allocated for the summer of 2014.
- If the City exceeds the 54,000,000 of ground water allotted during the contract period of October 1, 2013 through September 30, 2014, we will be assessed a disincentive fee of \$7.00 per thousand gallons by the Subsidence District.
- Gulf Coast Water Authority is requesting daily readings of water usages from all customers to monitor the efficiency of the implemented Drought Programs. Based on the supplied information further drought restrictions may be warranted.
- **July 1 - 31, 2013 Water Usage Amounts**
31 day average was 3.02 million gallons a day- 109% of capacity
Peak day usage was 3.63 million gallons a day- 131% of capacity
Minimum day usage was 2.63 million gallons a day- 95% of capacity

SUMMARY OF INCIDENT (Specifically address the type of defensive action used):

This officer attempted to place the suspect [REDACTED] under arrest after Bickham refused medical treatment at Mainland Medical Center ER for being under the influence of PCP. [REDACTED] resisted this officers efforts to place him under arrest by failing to comply with commands and pulling away from this officer. SUMMARY OF INCIDENT (Specifically address the type of defensive action used):

Writer attempted to detain a subject in custody while conducting an investigation of Disorderly Conduct. The subject ignored all verbal commands when instructed not to enter his vehicle that was parked in the driveway. Officer's were in fear that the subject was trying to retrieve a weapon and writer attempted to grab the subject by the arms. The subject began pulling away from writer in an aggressive manner as writer tried to place him in handcuffs. The subject failed to comply and Officer's struggled to place him in custody. During the process of escorting the subject to the patrol unit, the subject began pulling away and used resistance against writer. The subject was taken to the ground with the minimal amount of force necessary and told once again to stop resisting arrest. Once at the patrol unit, the subject refused to enter and writer advised him that additional charges would be pursued if he did not comply.

Explain why it was necessary to use defensive action specified above:

The subject was actively resisting arrest and he posed a threat to Officer's. The subject ignored all verbal commands along with Officer presence.

Explain why defensive action used was reasonable:

The subject actively resisted arrest and placed Officer's in harm of being injured. Soft empty hand control techniques were the only means of force used by Officer's and a higher level of force could have been used.

Explain consequences (injury, damage, etc.) that resulted from the use of defensive action:

No injuries were sustained by subject. Writer received two small scratches to the right hand during the process of placing the subject into custody.

Post Care Action Performed by Reporting Officer:

The subject did not complain of any injuries and none were observed.

If subject was not injured, document observations and/or any statements made by suspect, that indicate subject was not injured:

The subject did not complain of any injuries and none were observed.
