Mayor Pro-Tem Bell made a motion to accept the split payment option, seconded by Council Member Trube. Mr. Gage introduced Karen Cooper, Finance Director, to present the specifics of the agenda item. Ms. Cooper explained that property owners who do not have an escrow account would be given the option to split the payments into two payments without accruing interest or penalties, the first payment being due on December 1<sup>st</sup> and the second payment due July 1<sup>st</sup>. She stated that she had been asked to research if there would be a loss in income to the City. She stated that there possibly could be a projected loss of penalties and

interest of approximately \$36,000 per year. However if the property owners did not pay the tax, the City would eventually receive the tax money or the property would be sold. She felt that providing the split tax option would give the property owners a break. She stated that she only knows of one other city opting out of the program. Councilmember Osteen felt it would help a lot of the citizens. Mayor Pro-Tem Bell asked about opting out and possibly creating an office that would have to deal with collecting the taxes. Ms. Cooper stated that might be an option, but that she would not recommend it. She explained the extra charges that might incur from opting out of the program. Mayor Pro-Tem Bell stated that he is definitely in favor of the split tax payments. There being no further discussion, Mayor Hocking called for the vote and the motion passed unanimously.

**Consider, Discuss and Approve Recommendation for Award of LJA Project No. E019-0910 Construction of 2010-2011 Street Improvement Program Project 1 (West La Marque) to the low bidder AAA Asphalt Paving, Inc., of Houston, TX in the amount of \$532,581.95.**

Mayor Pro-Tem Bell made a motion to approve awarding the bid to LJA Construction in the amount of \$532,581.95. Council Member Trube seconded the motion. Mayor Pro-Tem Bell asked for clarification on the three phases of the projects. Public Works Director Mike Morgan addressed the question, stating that his department tried to expedite the project by letting three contracts at the same time so that three contractors could have been doing everything at the same time. One vendor, however, could possibly be awarded all of the contracts. Mr. Morgan stated that he projects a four-month completion schedule. Mr. Morgan stated that there are 54 (corrected 55) streets in the total project. There being no further discussion, Mayor Hocking called for the vote and the motion passed unanimously.

**Consider, Discuss and Approve Recommendation for Award of LJA Project No. E019-0920 Construction of 2010-2011 Street Improvement Program Project 2 (Central La Marque) to the low bidder AAA Asphalt Paving, Inc., of Houston, TX in the amount of \$615,579.00.**

**Consider and Discuss Final Payment for Cedar Drive Improvements IH-45 to SH 3 – Cost Over-Runs and Under-Runs**

Mayor Hocking invited Public Works Director Mike Morgan to the podium. Mr. Morgan explained the final close-out of the project. He explained that he 51,000-dollar over-run was the result of cost per basis on some items. Some areas fell under the final amounts. Mayor Hocking asked if the final was less than 2% of the total project. Mr. Morgan stated that by his calculation it came out to 1.5%. Mayor Hocking asked if the amount was about right for

the size of the project. Mr. Morgan stated that it was in line. Council Member Trube also stated that the project was completed ahead of schedule.

**Consider, Discuss and Approve Galveston County Animal Services Revision of the Animal Services Inter-Local Agreement Due to Increased Costs**

Mayor Hocking read a brief narrative outlining the details of the revision. Council Member Osteen made a motion to approve Option No. 1. Council Member Brown seconded the motion. Council Member Trube expressed her concerns about problems with the lack of Animal Services over weekends and their need to increase costs. Council Member Osteen noted that he came up with a 3567.00-dollar mistake when he worked the formulas on Option 1. On Option 2, he visited with Mr. Gage about the benefits of this option. He feels that the City would be contributing 60 percent and Animal Control Services 40 percent. He feels both options are identical. He would like further explanation on the 3567.00-dollar error. He suggested that Mr. Gage set up a meeting with Animal Services to get a further explanation of the numbers and get a finished product to present to City Council. Mayor Pro-Tem Bell shared his concerns of the projected 18 percent increase of \$73,500. He suggested that the City could possibly look at providing these services in-house. Mayor Hocking called for the vote and the motion failed unanimously.

Council Member Trube made a motion, seconded by Council Member Osteen. Mr. Ortego suggested that since there are two firms to consider, that the Council open the floor for discussion, and then based on that discussion a motion to select one of the two firms. Mayor Hocking read the narrative of the agenda item. Mayor Hocking asked that the motion be amended. Council Member withdrew his second to the original motion. Council Member Trube withdrew her original motion and made a motion that Council hire Knight & Partners to complete the redistricting process. A discussion followed concerning the timeline and costs of the project. Mr. Ortego stated that he also attended the TML seminar concerning redistricting and is familiar with Knight & Partners as very experienced lawyers in the redistricting process and would recommend the firm. Mayor Hocking called for the vote and the motion passed unanimously.

**DEPARTMENTAL REPORT**

**PUBLIC WORKS**

July 18, 2011

## **Public Works Director**

**Huff & Mitchell** – The close-out of this project is still on hold, as the City is waiting for authorization from the grant administrators for finalization. This delay is due to improper filing of payroll paper work.

**Alsay Equipment – TDRA Water Well Contract Take Point #2**– Contractor has completed all required flow testing of the well and the analysis was submitted to a professional ground water environmental engineering service. Within the firm, a licensed geologist reviewed the pumping test data performed by Alsay. The geologist reviewed the test data and is recommending changing the original engineering design of the well pump and motor. The original design would be insufficient to deliver the 1,200 gallons per minute as needed. The original data was based off of the water table with a pump setting at 200 feet, which would sustain a 1200 gallon per minute well with a 75hp motor. The actual test data has indicated that the water table depth and yield will require the pump to be located around 340 feet. The geologist is recommending a 150hp well motor to achieve the required 1,200 gallons per minute water flow rate as indicated in the TDRA performance statement. This upgrade will increase the scope of work by \$20,000. The increased funds will be adjusted at the end of the project as LJA Engineering has advised Alsay to move forward with the upgrade. The funding method will be by a change order deleting work from one of the other TDRA projects or through City funds if approved by Council.

**Magnolia Water Plant** – During the month of July, the contractor has mobilized excavation equipment and has started construction of the underground piping for the 500,000 gallon ground tank installation that will take place in the next couple of months.

**Fire Station Generator** – Bid books and contracts have been completed. The preconstruction meeting is scheduled for Wednesday, June 20, 2011 at 2:00 p.m. At this meeting we will set a start date for demolition of the existing generator and fuel tank and delivery date of the new generator.

**Waste Water Treatment Plant, Volney & Delany Generators** – Environmental audits were completed and the final paperwork was submitted to TDRA to be posted for public comment. At the end of the 15 day comment period, a request will be sent to Council for re-approval of the Delany generator contract. The environmental audit for the WWTP and Volney generators were previously posted and approved through the TDRA; the Delany generator's postings were delayed due to paper work problems with the TDRA.

**Funding for TDRA Projects** -The City was awarded in Round 2 Phase 1 funding, a 1.6 million dollar grant for water and sewer upgrades. The City applied for funding of a new main trunk sewer that will connect the Waste Water Treatment Plant on Woodland back to the main line coming in off of FM 519. The water line extension project will install a 12" trunk line from Cedar @ IH-45 boring under IH-45 and connecting back to a 12" main located around FM 1765 @ Kirby.

**Stage 2 Drought** – The City initiated the Stage 2 Drought restrictions on June 27<sup>th</sup>. To date we are running a seven day average of 2.27 million gallons of water a day which is below the 95% triggering requirements for Stage 2. Within this time frame, we have received some rainfall which has helped to improve this situation. If we continue with this reduction of use for an additional week, it is possible that Stage 2 restrictions could be lifted and we would be back to Stage 1 voluntary restrictions. The City is under going reconstruction of its emergency wells, due to this reduction of water capacity, I believe it is in the best interest of the City to continue with the Stage 2 restrictions, to help maintain a safe operating level with a contingency of back up water supply.

**July 13 – July 19 Water Usage Amounts**

7 day average 2.27 million gallons a day

Peak day usage was 2.474 million gallons a day

Minimum day usage was 2.026 million gallons a day

3 days at or above 85% of the City's daily capacity of 2.78 million gallons a day

**Diesel Tank** – At the first of July, we had started experiencing issues with the dispensing of diesel fuel to City equipment and vehicle malfunctions due to bad diesel fuel. Samples were taken from the tank and it was determined that the 6,000 gallon diesel tank was contaminated with a foreign product. Samples of the product were forwarded to the tank manufacture for further testing. The manufacture determined that the foreign matter was over 95% iron and was not part of the lining of the tank. An independent company was hired to clean and evaluate the tank structure. The tank was cleaned, evaluations were made and some minor repairs were made to the pump piping by City staff and the diesel dispenser was flushed and returned to service today, Tuesday, July 19, 2011. During this time we have been purchasing diesel from a station in town to maintain service to the City's fleet.

**Assistant Public Works Director**

## **FIRE MARSHALL**

July 18, 2011

JENNIFER PIERCE

---

Fire Marshal/Emergency Management Coordinator

# Status Report

## **Emergency Management**

**T**he Office of Emergency Management is conducting an informal assessment of the state of readiness for the entire City of La Marque. Fire Marshal Pierce has visited each of the City buildings and has toured the City looking for potential hazards and areas of concern.

Grant funds are currently available through multiple sources. Fire Marshal Pierce is working to assess the needs of the community, as it pertains to Emergency Management, and apply for as much financial support as possible.

In addition to the above, Fire Marshal Pierce has begun attending local and county-wide meetings to better familiarize herself with the operations of the County as a whole and the role of the City during a disaster.

A report detailing all of Fire Marshal Pierce's findings will be provided to the City Manager in the upcoming weeks.

## **Fire Prevention**

**T**he Office of the Fire Marshal is conducting an informal assessment of the current level of inspections. Fire Marshal Pierce has visited each of the City buildings and has toured the City looking for potential hazards and areas of concern. It is the intent of the Fire Marshal to ensure that each of the City buildings reflect a "fire safe" image as we are requiring the local commercial businesses to do the same.

The Department of Homeland Security Grant funding periods are opening soon. Fire Marshal Pierce is working with the Fire Chief and Captains to assess the needs of the Fire Department as well as those of the community. All federal funds from the Department of Homeland Security require a 5% cost match from the City.

A report detailing all of Fire Marshal Pierce's findings will be provided to the City Manager in the upcoming weeks.

## **Public Education**

**T**he Office of the Fire Marshal is conducting an informal assessment of the most common safety concerns for the citizens of La Marque. Maintaining a high level of quality safety education is important for any community.

In addition to the above, Fire Marshal Pierce has begun attending local meetings to better familiarize herself with the citizens of La Marque. She is looking forward to speaking to different groups in the upcoming future. Creating changes in behavior will make the community safer for both the citizens and the public safety responders.

A report detailing all of Fire Marshal Pierce's findings will be provided to the City Manager in the upcoming weeks.

## IRS Increases Mileage Rate to 55.5 Cents per Mile

IR-2011-69, June 23, 2011

WASHINGTON — The Internal Revenue Service today announced an increase in the optional standard mileage rates for the final six months of 2011. Taxpayers may use the optional standard rates to calculate the deductible costs of operating an automobile for business and other purposes.

The rate will increase to 55.5 cents a mile for all business miles driven from July 1, 2011, through Dec. 31, 2011. This is an increase of 4.5 cents from the 51 cent rate in effect for the first six months of 2011, as set forth in Revenue Procedure 2010-51.

In recognition of recent gasoline price increases, the IRS made this special adjustment for the final months of 2011. The IRS normally updates the mileage rates once a year in the fall for the next calendar year.

"This year's increased gas prices are having a major impact on individual Americans. The IRS is adjusting the standard mileage rates to better reflect the recent increase in gas prices," said IRS Commissioner Doug Shulman. "We are taking this step so the reimbursement rate will be fair to taxpayers."

While gasoline is a significant factor in the mileage figure, other items enter into the calculation of mileage rates, such as depreciation and insurance and other fixed and variable costs.

The optional business standard mileage rate is used to compute the deductible costs of operating an automobile for business use in lieu of tracking actual costs. This rate is also used as a benchmark by the federal government and many businesses to reimburse their employees for mileage.

The new six-month rate for computing deductible medical or moving expenses will also increase by 4.5 cents to 23.5 cents a mile, up from 19 cents for the first six months of 2011. The rate for providing services for charitable organizations is set by statute, not the IRS, and remains at 14 cents a mile.

The new rates are contained in [Announcement 2011-40](#) on the optional standard mileage rates.

Taxpayers always have the option of calculating the actual costs of using their vehicle rather than using the standard mileage rates.

## IRS Increases Mileage Rate to 55.5 Cents per Mile

IR-2011-69, June 23, 2011

WASHINGTON — The Internal Revenue Service today announced an increase in the optional standard mileage rates for the final six months of 2011. Taxpayers may use the optional standard rates to calculate the deductible costs of operating an automobile for business and other purposes.

The rate will increase to 55.5 cents a mile for all business miles driven from July 1, 2011, through Dec. 31, 2011. This is an increase of 4.5 cents from the 51 cent rate in effect for the first six months of 2011, as set forth in Revenue Procedure 2010-51.

In recognition of recent gasoline price increases, the IRS made this special adjustment for the final months of 2011. The IRS normally updates the mileage rates once a year in the fall for the next calendar year.

"This year's increased gas prices are having a major impact on individual Americans. The IRS is adjusting the standard mileage rates to better reflect the recent increase in gas prices," said IRS Commissioner Doug Shulman. "We are taking this step so the reimbursement rate will be fair to taxpayers."

While gasoline is a significant factor in the mileage figure, other items enter into the calculation of mileage rates, such as depreciation and insurance and other fixed and variable costs.

The optional business standard mileage rate is used to compute the deductible costs of operating an automobile for business use in lieu of tracking actual costs. This rate is also used as a benchmark by the federal government and many businesses to reimburse their employees for mileage.

The new six-month rate for computing deductible medical or moving expenses will also increase by 4.5 cents to 23.5 cents a mile, up from 19 cents for the first six months of 2011. The rate for providing services for charitable organizations is set by statute, not the IRS, and remains at 14 cents a mile.

The new rates are contained in [Announcement 2011-40](#) on the optional standard mileage rates.

Taxpayers always have the option of calculating the actual costs of using their vehicle rather than using the standard mileage rates.

Ron Crowder, President  
La Marque Economic Development Corp.

Ronnie:

Due to an increase in my responsibilities at the D.A.'s office, it has become increasingly difficult for me to attend and almost impossible for me to remain in attendance for the entirety of the meetings of the board I am able to attend.

I have, therefore, decided that I must resign my position as a member of the board effective with the naming and installation of my replacement.

I regret that this action is necessary, but believe it to be in the best interest of the city in general and the EDC in particular.
